ESSENTIALS CATALOGUE 2020

1

THINK. BELIEVE. BECOME.

At Icon Sports we THINK outside the square, BELIEVE in our product and what we do and strive to BECOME the best we can be.

These are the three core values that drive us each day to continuously strive to improve and create the best possible product.

Icon Sports began in 2010 and specialise in fully customised team wear with our Head Office located in Victoria and with numerous other locations throughout Australia, the United Kingdom and United States.

Currently over 1000 sporting teams and governing bodies Australia wide now choose to wear Icon Sports team wear. Icon Sports is accessible to everyone from our grass roots weekend warriors right through to our official apparel partner professional teams.

With a clear focus on innovation our knowledge and technology is built on years of industry experience and with our in-house design team and exclusive manufacturer the whole process is tailored to provide you with the best possible customer service experience.

ICON ESSENTIALS RANGE CATALOGUE

ESSENTIALS RANGE #1

WHAT MAKE US DIFFERENT

Icon Sports - built by the athlete for the athlete.

Being different is what makes Icon Sports unique from its competitors. With the company mantra of THINK.BELIEVE. BECOME. Icon Sports has innovation and quality front of mind. A brand does not automatically differentiate a company from its competitors. The brand has to stand for something, be recognized by an audience, and communicate something unique and different from its competition. At Icon Sports we stand for Innovation, Integrity and Quality. Branding is much more than just creating a logo. It is the ongoing commitment to the core values and foundation that Icon Sports was built on. With over 10 years in the industry Icon Sports continues to grow on the back of its unique foundation and commitment to excellence. Icon Sports is for the athlete, with professional sportsmen/women spearheading our team our point of difference is understanding what the athlete requires and tailoring each garment with the athlete front of mind.

QUALITY ASSURANCE

One of Icon Sports pillars is the quality of our products and the quality of our service.

Icon's Quality Assurance process can be defined as "part of quality management focused on providing confidence that quality requirements will be fulfilled." The confidence provided by quality assurance is twofold—internally to management and externally to customers.

Icon's rigorous Quality Assurance process begins from the order stage to the factory floor, to the customer. Each and every step of the production process is held to the highest standard ensuring Icon's standards are upheld and delivered to our partners. Quality checks and processes are maintained and delivered. Icon's QA establishes and maintains set requirements for developing or manufacturing quality products. Icon's quality assurance system increases customer confidence and Icon's credibility, while also improving Icon's work processes and efficiency, Icon's QA program enables Icon to better compete with others.

DELIVERY & LOGISTICS

Icon is proud of its performance in relation to delivery and logistics. Icon's processes and partnership with its manufacturing and logistic divisions allow a smooth process from order to delivery. A set standard and expectation which Icon works hard each and every day to maintain and continue to deliver. We at Icon are One Team dedicated to excellence in every way and our delivery and logistics divisions play a big part as one cog in the chain. Once the delivery team have executed the logistics team spring into action to ensure the final piece of the chain continues to flow. Icon's logistic partners work closely with the many Icon teams, to ensure our partners have their goods delivered "on time every time".

PLAYER WEAR

PRO CRICKET SHIRT CSPRO

ICON SIZE GUIDE

All measurements are based on actual body measurements.
See below for how to correctly measure each area.

FOR TOPS:
Use chest and waist measurement

FOR BOTTOMS:
Use waist and hips measurement

1 CHEST
Measure around the fullest part of your chest, just below the armpits.

2 WAIST
Measure around your waistline, close to your belly button.

3 HIPS
Measure around the fullest part of your hips.

THE FINEST TEXTILES

Years of development, testing and experience have resulted in these, our favorite performance fabrics. Not all fabrics are the same and

SPEEDO *Fleece lined material which provides warmth with a smooth finish on the outside which makes it the perfect combination of comfort/warmth and style.*

MELANGE SPEEDO *The same lightweight sweat wicking fabric as Speedo but with a stylish freckle finish that is perfect for the track as well as casual wear.*

DRIFIT *Is an innovative polyester fabric which is engineered to wick away sweat from the body and disperse it evenly through the surface of the garment allowing it to evaporate quicker.*

FRENCH TERRY *French terry is a light to medium weight fabric. It has small loops on one side and a flat surface on the other to allow the perfect combination of breathability and a lightweight making it the #1 choice for sportswear.*

Icon is very proud of the technology, performance and comfort levels of the fabrics we offer.

MICRO STRETCH *The professionals choice for shorts, the stretchy nature of the material make it comfortable whether using on field or off field.*

MICRO PK *A corporate classy looking material, which is perfect for the off field 'media polo'.*

KOREAN *New age fabric perfect for jackets with it's soft feel and breathability whilst also being shower proof.*

INTERLOCK *A lightweight sweat wicking fabric which has a soft feel. Interlock is a flexible fabric which is highly absorbent and has a shiny finish which makes it the perfect material on the eye.*

CUSTOMISED FOR YOU

Collaborate with our team of highly qualified designers to customise your team wear. Create a one of a kind design using sublimation printing, embroidery, cut 'n' sew, screen printing or choose from a number of specialist aesthetic and performance finishes. Let your team stand out from the crowd and represent their teams colours in their very own customised uniform.

PRINTING & EMBROIDERY

SUBLIMATION

Sublimation is where a design is printed onto special paper and is then transferred onto the garment through the use of pressure and heat. This process delivers a permanent and fade resistant design and ensures that your fully customised garments are of exceptional quality, sharp in design and rich in colour.

CUT AND SEW

Your custom 'cut and sew' garment is created with the perfect blend of performance materials in your desired colour which is cut to your design and sewn into the best fitting custom sports apparel available. Embellishments can then be added in the form of screen printing, vinyl heat press, silicone printing or embroidery.

CUT & SUBLIMATION

A 'cut and sub' garment is made with both pieces of blank material and pieces that have been sublimation printed to your design. Other embellishments can then also be added.

EMBROIDERY

We are proud of our superior embroidery and always using double strength backing paper, the best thread quality and state-of-the-art equipment to give your logo the optimum chance to be replicated properly, no matter how large or detailed it is.
